

(Required for all students 13 and under)

## INTERNET AND ONLINE RESOURCE ACCESS

### Online Accounts and Resources

Fremont Unified School District provides students and staff resources that are available online as a tool to make doing their work easier. Some of these resources use components that are online such as Google Apps for Education among other online resources. Read a description of Google Apps at <https://support.google.com>.

Google Apps for Education offers free web-based tools to school districts that make it easier for staff and students to collaborate together. Read more about Google Apps for Education at <https://www.google.com/edu/>.

Student accounts are created through an automated process in which the student's information is transmitted to, and stored by Google, on behalf of the District. This information is only used to create, manage, and maintain user accounts (first name, last name, and username). Google's Privacy Policy prevents Google from sharing personal information and they do not access content stored on Google Apps unless the District gives permission to do so for troubleshooting purposes. Read Google's Privacy Notice for Google Apps for Education at [https://www.google.com/work/apps/terms/education\\_privacy.html](https://www.google.com/work/apps/terms/education_privacy.html).

Google Apps for Education core services include Gmail, Calendar, Classroom, Contacts, Drive, Docs, Forms, Groups, Sheets, Sites, Slides, Talk/Hangouts and Vault. At this time, the District does not use Gmail and Talk/Hangouts.

---

### Google Apps for Education

I have read the Online Accounts and Resources information above, and I am aware that the District utilizes a suite of online applications called *Google Apps for Education* to facilitate collaboration and communication among students and staff when creating, sharing, and storing documents and assignments online.

I understand that when a District user account is created for the student, a corresponding *Google Apps for Education* account will be automatically created, causing information about the student (first name, last name, and username) to be collected and stored electronically. I further understand that the student may store class work or files in *Google Apps for Education*; depending on the sharing options selected by the student, these files may be accessible to someone other than the District or the Student, including classmates or the public. I have read the privacy policies associated with the use of *Google Apps for Education* (<http://www.google.com/apps/intl/en/edu/privacy.html>).

I **DO** give permission for the Student to have Internet or Google Apps for Education access.

#### Opting Out:

Schools are permitted to consent to the collection of personal information on behalf of parents/guardians of students, thereby eliminating the need for individual parental consent given directly to the website or resource operator. Before doing so, the District is providing you with this notice and the ability to opt-out.

I **DO NOT** give permission for the Student to have Internet or Google Apps for Education access. The Student will not be issued a District user account, and will only be provided with access while participating in District-adopted computer-based assessments.
